13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*
Please grant an additional <u>extension to January 15, 1996.</u> We have evaluated the well and cannot find any additional use for the well nor can we get agreement from the operator of the shallow minerals to accept the well for use in the development of the shallow minerals.

We intend to plug the well soon, but need the extra time to allow coordinating the work with the plugging of the Coquina Federal No. 1 in the Artesia District, and the Midwest Federal No. 3 in the Roswell District.
