

4. ROADS - CONTINUED

b. PLANNED ROADS - No new roads will be constructed. Existing roads will be repaired and used. Suggested route to the location colored red on Exhibit "B".

c. FENCES, GATES AND CATTLE GUARDS - Will be maintained as General American already operates several hundred wells in the immediate area.

5. TANK BATTERY - If production is encountered a tank battery will be erected on location.

6. LEASE - PIPELINES

a. EXISTING - All existing pipelines are shown on Exhibit "B".

b. PLANNED - If production is encountered, proposed flowline will consist of 2" steel line laid on top of the ground to tank battery on location.

7. WASTE DISPOSAL - Barrel trash containers will be in accessible locations within the drill site area during the drilling and completion operations. A waste disposal pit will be deep enough to handle waste and will be covered with a minimum of 2 feet of top soil. See Exhibit "C" for pit location. If well is productive, maintenance waste will be placed in special trash can and hauled away periodically. Any produced water will be disposed of through the currently existing S. W. D. system.

8. WATER SUPPLY - Water supply to drill this well will be furnished by trucking.

9. ARCHEOLOGICAL RESOURCES - See attached Conservation Archeology's Clearance Report.

10. RESTORATION OF SURFACE - If well is productive, pits will be backfilled and leveled as soon as practical. Upon final abandonment of well, well site will be leveled and cleaned, with land returned as near as practical to original condition.

11. OPERATOR'S REPRESENTATIVES - Field personnel who can be contacted concerning compliance of this surface use plan are as follows:

Drilling and Production

12. CERTIFICATION

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions as they actually exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and that the proposed work performed by General American Oil Company and its Contractors and Sub-Contractors will conform to this plan.
