Dear Sir:

With reference to our phone conversation with Mr. Garcia of your Santa Fe office on June 18, 1982, and Rule 5, Commission Order R-6415, our records indicate a flow rate of 8,116 MCFD on April 14, 1982, and 1,817 MCFD on May 11, 1982. These rates are the highest recorded in April and May.

If we can be of further assistance, please let us know.

Very truly yours,

Jerry Clark
