- C. Flora and Fauna: The vacinity surrounding the drillsite is semi-arid desert rangeland. Vegetative cover is sparse, and flora consists of mesquite and other desert plants with a small amount of native grasses. No wildlife was observed, but fauna for this type of habitat consists mostly of lizards, rabbits, rodents, coyotes, skunks, dove, quail and miscellaneous small birds.
- D. Ponds and Streams: None.
- E. Residences and other Structures: Nearest occupied dwelling is 1.75 miles to the south. Nearest water well is 1.1 miles to the north.
- F. Archaeological, Historical and Other Cultural Sites: None were observed in the area. An archaeological reconnaissance of the well pad and road area was made by New Mexico Archaeological Services, Inc. on 2-16-81.
- G. Land Use: Grazing and occasional hunting.

## 12. OPERATOR'S REPRESENTATIVE:

Representative responsible for assuring compliance with the approved Surface Use Plan:

Moss Bannerman
Division Drilling Engineer
6800 Park Ten Blvd.
Suite 200 North
San Antonio, Texas 78213
Office 512-734-8161
Home 512-492-5218

Doug Keen
Division Geological Engineer
6800 Park Ten Blve.
Suite 200 North
San Antonio, Texas 78213
Office 512-734-8161
Home 512-492-4626

## 13. CERTIFICATION:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route, that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge true and correct; and, that the work associated with the operations proposed herein will be performed by TENNECO OIL COMPANY and its sub-contractors in conformity with this plan and the terms and conditions under which it is approved.
