14. Description of Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Reached TD of 7300' on 7/6/82. Ran 5 1/2", 17#, K-55, LTC csg set at 7300'. Cemented w/ 350 sx Class H cmt. A CBL will be run 7/12/82.

Analysis of logs showed questionable production. Therefore only 350 sx of cement were used to cement the production casing to facilitate recovery of the 5 1/2" string should the well prove non-commercial.

This information requested per W. A. Gresset during phone conversation with Jimmy Carlile July 9, 1982.

15. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
