

Rule 8:

- a. M. Dodd "B" #36 - 330 FSL 1345 FEL Sec. 14-T17S-R29E
M. Dodd "B" #34 - 660 FSL 1980 FEL Sec. 14-T17S-R29E
- b. #36 - 1/21/84
#34 - 8/19/71
- c. #36 - 2/20/84
#34 - 10/24/71
- c. None
- e. #36 - 67 bbl oil, 100 mcf gas/day
#34 - 12 bbl oil, 8 mcf gas/day
- f. NA
- g. The #34 well produces less than 10 mcf gas/day. The #36 experienced new reservoir conditions when drilled. The complexity of this reservoir and the new reservoir type production rates attained in new well indicates the necessity to drill the new well to efficiently drain the reservoir.
