Re: Green Federal
#8-B-31-17-29

Gentlemen:

According to our records an allowable has never been issued for the above captioned well, but it is appearing on the monthly C-115 report as producing.

Our file shows we have received the completion report, but not the sundry notice of when the 4½" casing was run. We do not have a C-104, Request for Allowable.

Please send these forms in as soon as possible so that an allowable can be approved and issued on this well.

Sincerely,

A handwritten signature in cursive script, reading "Les A. Clements".

Les A. Clements
Supervisor District II
