

11. OTHER INFORMATION

- A. The topography is of an essentially flat terrain with scattered dunes. Vegetation is sagebrush and native grass. The soils are blowsand over caliche base. See topographic map - EXHIBIT G.
- B. The surface is used to mainly access producing wells in the area and minimal grazing for livestock. It is administered by the BLM and leased to Williams & Son Cattle Company, P.O. Box 30, Maljamar, New Mexico 88264.
- C. An archaeological study has been conducted for the location by James Sciscenti (Roswell), who has recommended clearance.
- D. There are no buildings in the immediate area, although this location is only 3/4 mile due south of the Loco Hills Townsite.

12. OPERATOR'S REPRESENTATIVE - Anadarko Petroleum Corporation's field representative for contact regarding compliance with the Surface Plan is:

Before, during, and after drilling:

Mike Braswell
(505) 748-3368

13. CERTIFICATION - I hereby certify that I, or persons under by direct supervision, have inspected the proposed drill site and access route; that the statements made in this plan are the best of my knowledge, true and correct; and that the work associated with the operations proposed herein will be performed by Anadarko Petroleum Corporation and its contractors/subcontractors in conformity with this plan and the terms and conditions under which it is approved. This statement is subject to the provisions of 18 U.S.C.1001 for the filing of a false statement.

Area Supervisor
