13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximated duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Phillips Petroleum Company requests permission to dig into old reserve pit and utilize pit as a burn pit in order to clean out frac sand fill in the wellbore. Estimated duration of the flare is expected to be approximately 2-3 days with a volume not more than 1.0 mmcfpd.

MIRU DDU - Clean out frac sand fill and return well to production.
