13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

RE: Parke A Federal #2 Location
Section 22-17S-30E
Eddy County, New Mexico

Dear Jim:

Enclosed is a copy of the well layout which was submitted on the Parke #2 location. Subsequent to filing the location, you have laid a disposal line through where our reserve pit was planned. Rather than moving the line, we have drafted a revised plat which would move the pit. If you are agreeable to allow us to build over your disposal line for our pipe racks and stinger, then the location could be built as described on the revised plat. Please advise us if this would be agreeable with you.

Also, I haven't seen anything from you on the Chalk Bluff well. Please advise if I missed it.

Thank you for the help in these matters. If you have any questions, please contact me.

09/03/98: Per our telephone conversation this date, please be advised that Mack Energy Corporation approves of your revised Plat to move the Pit on the Parke #2 location.

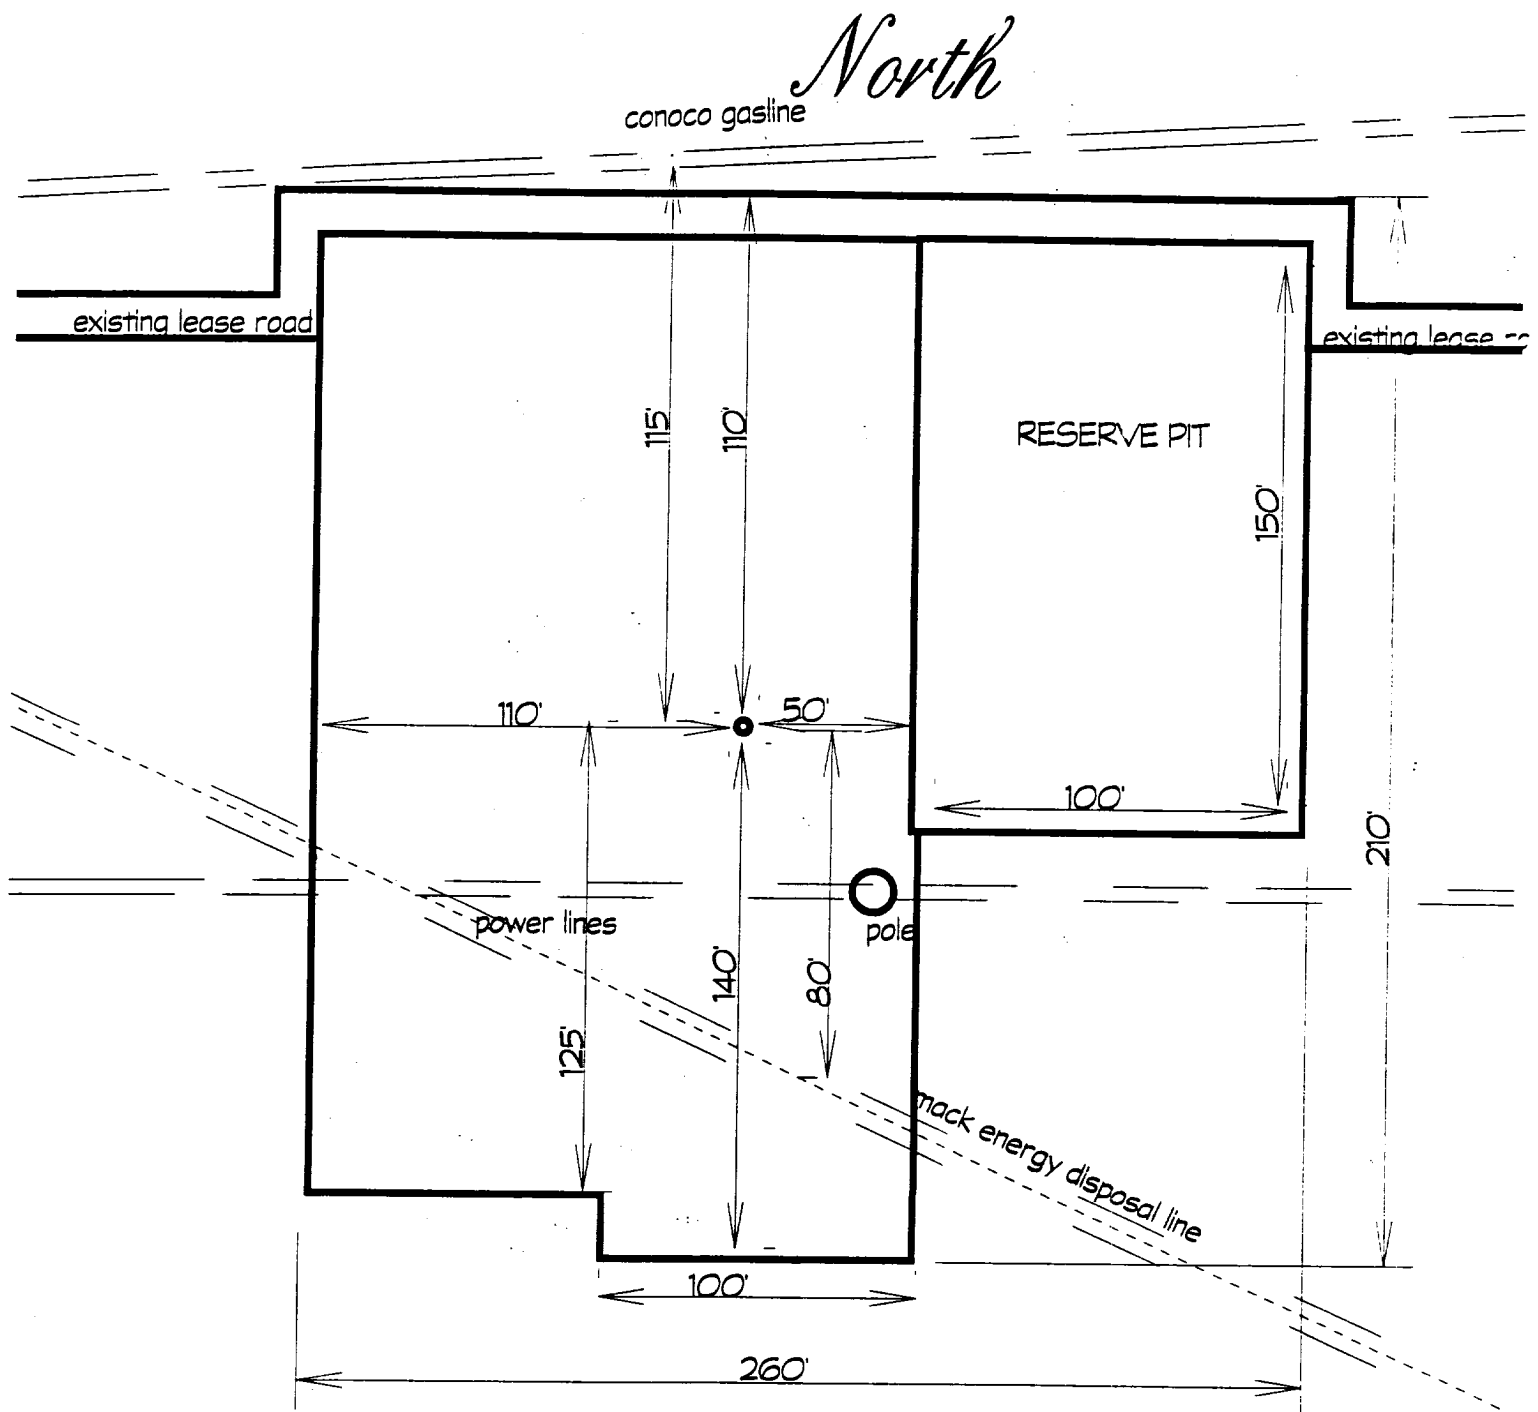

Robert C. Chase
