17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

On January 27, 1966, set packer at 1624' and treated perforations at 1632' to 1652' with 500 gallons of regular acid. Test on February 10, 1966 showed the well produced 15 barrels of oil in 24 hours.

We erroneously reported we would set bridge plug at 1622', when we should have reported we would set packer at 1622'.
