Mr. Russell Crawford
Pecos Valley Artesian
Water Conservancy District
Roswell, New Mexico

Dear Mr. Crawford:

With reference to the well you mentioned in our telephone conversation today, I have checked the file on this well and find that it was drilled under the name of R. L. Harrison as operator and known as Crockett-Spencer No. 1, NW/NE/NE of Section 19-18S-26E, Eddy County, New Mexico. Also, on some of the Commission forms the well was reported as R. L. Harrison and Solar Exploration Company. The correct address of R. L. Harrison is Albuquerque, New Mexico. Perhaps this information will be of some benefit in your billing the proper party for the plugging of this well.

We would appreciate a copy of your report as to the status of the well before and after your plugging operations were completed.

Yours very truly,

OIL CONSERVATION COMMISSION

L. A. HANSON
Supervisor, Oil & Gas Inspector

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[illegible]

1. The first of these is the fact that the company has been operating for a number of years and has a long and successful record. This is a strong indication of the company's ability to manage its affairs and to provide a high quality of service to its customers.
