Re: Date of 1st allowable
on Lee Gas Unit "C" #1
E-22-18=26, Atoka-Penn.

Dear Sir:

Reference your letter of December 8, 1961.

The well status figures quoted in your letter are correct on all wells except the Lee Gas Unit. This well status should be 153,502. All figures are as of 11-1-61.

In regard to the August, September and October allowable on the Lee Unit well, I have found that your C-110 dated August 9, 1961, reported the well as connected and since you actually are the gatherer instead of Southern Union, as shown on this form, we can consider this form as notice of connection. However, in the future a notice of connection from the purchaser or taker of gas should be filed.

A supplement will be issued in a few days assigning an allowable to this well effective 8-9-61. This of course, will adjust the 153,502 balance figure. This adjustment will be shown on the supplement.

If we can be of further assistance, please advise.

Very truly yours,

ELVIS A. UTZ
Gas Engineer

Re: Date of last allowance
on New Gas Unit "C"
8-72-18 10, New Mexico

Dear Sir:

Received your letter of December 27, 1961.

The well status figures quoted in your letter are correct in all wells except the New Gas Unit. All wells status figures are as of 12-1-61.

In regard to the August, September and October allow-
ance on the New Gas Unit, I have found that your well status
August 2, 1961, reported the well as connected and since you
reportedly are the operator instead of Southern Union, as shown
on this form, we can consider this form as notice of connection
from Southern Union, in the future a notice of connection from
the purchaser or owner of gas should be filed.

A supplement will be issued in a few days assigning
an allowance to this well effective 8-2-61. This of course,
will require the 153,502 balance figure. This adjustment will
be shown on the supplement.

If we can be of further assistance, please advise.

Very truly yours,

ELVIS A. GIBBS
Gas Engineer
