Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well is presently producing from Yeso interval 2758-2841'. It is proposed to open additional Yeso pay by selectively perforating within the interval 2850-3950'. The new perforations will be stimulated as necessary to obtain production. Following stimulation, the newly completed Yeso interval will be combined with the existing completion.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
