Re: Hawkins Gas "COM" Well #2  
Section 27, T18S, R26E,  
Atoka Penn Field  
Eddy County, New Mexico

Gentlemen:

In reply to your letter of September 3, I am returning herewith the three (3) copies of Form C-103 with the Workover dates included.

The well is capable of producing only 50 MCF per day into the line pressures of Transwestern and Southern Union. I do not believe that a satisfactory Multi-Point Test could be obtained. It is requested that Rule 401 be waived in this case.

Another workover is being considered and as soon as approval has been obtained from all members of the unit the proper forms will be submitted.

Very truly yours,

Tom L. Ingram
