Gentlemen:

A reinspection was made March 22, 1973, of the subject plugged and abandoned well. However, the inspection revealed the following items have not been corrected.

1. Marker shows incorrect footage
2. Junk need be removed or buried
3. Deadmen must be cut and covered
4. The plugging pit and tank pad must be levelled

Please notify this office as soon as this work has been completed so that we may complete our file.

Very truly yours,
