**Status Report**

Detailed account of work done, nature and quantity of materials used, and results obtained.

The purpose of this report is to clarify the status of above well. Apparently a well was started at a location 330' FWL & 1980' FWL of Section 35, T-18-S, R-26-E, Eddy County, New Mexico. We find Application for Permit to Drill was filed under date of March 19, 1959, and approved by the Ground Water Supervisor at Roswell, New Mexico, March 27, 1959. Apparently, there was no drilling done at this location as we have a Notice of Intention to Drill, Form C-101 dated March 31, 1959, showing the intention of drilling the E. P. Campbell Well No. 1-A, 330' FWL and 2045' FWL. This was the well actually drilled on this 40 acre tract of land down to approximately 6000'. We do not find any indication on the surface of the land as to this well having been drilling any depth, and we do not consider further report necessary but will file one if you so request.
