Dear Sir:

On April 6, 1959, we received a plugging report on the above-captioned well. This report was not approved as the location was not cleaned and leveled. Since that time I understand you have gone back into this well to convert it to a water well.

Please inform this office as to the status of this well immediately. Also, please note the enclosed second notice regarding your Dorothy Sanford et al Well No. 1, Sec. 34-18S-26E.

Very truly yours,
