

OIL CONSERVATION COMMISSION
P. O. BOX 871
SANTA FE, NEW MEXICO

July 14, 1958

Standard Oil Company of Texas
Box 1249
Houston, Texas

Attention: Mr. C. M. Segnar

Gentlemen:

We are enclosing herewith copy of the Packer Leakage Test and Test Data Sheet for the test taken recently on your Vinnie L. Leavitt Well No. 2, which is dually completed in the Grayburg and San Andres formations in Section 13, Township 18 South, Range 26 East, Eddy County, New Mexico.

As you will note upon examination of the pressures recorded during the test, it appears that there is communication between the two zones, possibly through the packer.

It is requested that you immediately schedule a re-test of your well notifying Mr. M. L. Armstrong, District Supervisor for the Commission, Artesia, New Mexico, of the time said test is to be commenced.

If after re-testing, it has been determined that there is in fact communication, remedial action must be taken as soon as possible.

Very truly yours,

DANIEL S. NUTTER
Chief Engineer

U.S. CONSERVATION COMMISSION
P. O. BOX 871
SANTA FE, NEW MEXICO

July 11, 1938

St. Louis, Missouri
July 11, 1938
Dear Sir:

Re: Conservation of the

Commission:

We are enclosing herewith a copy of the letterhead report and test data which have been taken from your visit to the well No. 2, which is being completed in the "Laramie" and "San Andres" formations in Section 12, Township 13 North, Range 1 East, T13N, R1E, S1E, New Mexico.

As you will note upon examination of the test data, the results of the test are very good, and it is hoped that the well will be completed in the near future.

It is suggested that you immediately schedule a re-test of the well, and that you advise the Commission of the results of the test, and of the time when it is completed.

If after re-testing, it has been determined that there is in fact communication, remedial action must be taken as soon as possible.

Very truly yours,

DAVID L. LINDSEY
Chief Engineer

cc: Mr. J. H. Armstrong, Executive, N. Mex. Indus. & Com. Div.

Handwritten notes:
Please make sure that the test will be done in the near future. It is important to the Commission.
Thank you very much for the letterhead report and test data.
Very truly yours,
David L. Lindsey
