17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well is a dual completion. Upper zone perforations 990' to 1000' in Grayburg. Lower zone perforations 1731' to 1756' in San Andres. We propose to set bridge plug at 1700'. Squeeze Grayburg perforations 990' to 1000' with 100 sacks Class "C" cement. Will drill cement and test squeeze, drill bridge plug and return San Andres zone to production as single completion in the Atoka San Andres Field.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
