March 13, 1953

Mr. Bob Hanson  
Oil Conservation Commission  
205 Carper Bldg.  
Artesia, New Mexico

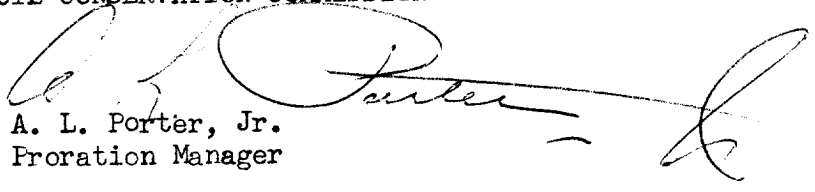

Dear Bob:

At your convenience I would appreciate it if you would take this copy of Form C-115 which I am enclosing and check with the operator or his agent. We are unable to locate a well of this description on the proration schedule and have therefore been unable to determine where the allowable for January of 217 barrels shown on C-115 came from. It is altogether possible that the location is mixed up or it may be that it is an old well that has been removed from the schedule. In any case it should be cleared up.

We notice that this report was dated March 3rd which is two weeks past the time when it is due in this office.

Yours very truly,

OIL CONSERVATION COMMISSION

  
A. L. Porter, Jr.  
Proration Manager
