WILLIAM HUDSON

Well No. HUMBLE #1 is located 330 ft. from XXX line and 2310 ft. from XXX line of sec. 4SE/4 34/4 Section 418-3, 27-EN.M.P.M.,

(1/4 Sec. and Sec. No.)

(Twp.)

(Range)

(Meridian)

RED LAKEEDDYNEW MEXICO

(Field)

(County or Subdivision)

(State or Territory)

The elevation of the derrick floor above sea level is 3559 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We plan to drill and test the San Andreas formation at approximately 2100'. We expect to run approximately 1400' of 8-5/8" casing and comply with cementing or mudding requirements of the U.S.G.S. and the New Mexico State Engineer.

In the event we get production, we will run 5-1/2" 17# seamless casing as an oil string to total depth.

This well is in the Water Board District and we will comply with all requirements and regulations of that department and notify them when any cementing or mudding is done.

This well will be drilled with rotary to total depth. Contractor is Harvey Yates, Artesia, New Mexico.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
