17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has been temporarily abandoned since August, 1962 and we would like to retain the temporary abandonment status until the well can be recompleted. All paper work concerning the recompletion in two possible zones (1861-1831; 1628-1702) is about completed and the work should begin in the very near future.

The present condition of the well is such as to prevent damage to the producing zone, migration of hydrocarbons or water, the contamination of fresh water or other natural resources, or the leakage of any substance at the surface.
