-	SOUTH COEWORK	gs; indicate mudding jobs, cement-
I State names of and expected depths to objective sands; ing points,	DETAILS OF WORK show sizes, weights, and lengths of proposed casing and all other important proposed work)	ge; indicate mudding jobs, cement-
State names of and expected depths to objective sands; ing points,	DETAILS OF WORK show sizes, weights, and lengths of proposed casing and all other important proposed work)	、 水 皮 。
State names of and expected depths to objective sands; ing points,	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject velicity producing, propose to	o continue produci
State names of and expected depths to objective sands; ing points, ing points, propose to run tubing & runtificient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject velicity producing, propose to	o continue produci
State names of and expected depths to objective sands; ing points, ing points, propose to run tubing & runtificient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject velicity producing, propose to	continue product
State names of and expected depths to objective sands; ing points, ing points, propose to run tubing & runtificient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject velicity producing, propose to	continue product
State names of and expected depths to objective sands; ing points, ing points, propose to run tubing & runtificient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject velicity producing, propose to	o continue produci
State names of and expected depths to objective sands; ing points, ing points, propose to run tubing & runtificient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject velicity producing, propose to	continue product RECEIVED MAR 1 6 1964
State names of and expected depths to objective sands; ing points, subject well has been T.A. Propose to run tubing & sufficient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject velicity producing, propose to	continue product RECEIVED MAR 1 6 1964
State names of and expected depths to objective sands; ing points, subject well has been T.A. Propose to run tubing & sufficient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) i.since 1957 rods to test subject vell tify producing, propose to	MAR 1.6 1964
State names of and expected depths to objective sands; ing points, subject well has been T.A. Propose to run tubing & sufficient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) i.since 1957 rods to test subject vell tify producing, propose to	MAR 1 6 1984
State names of and expected depths to objective sands; ing points, gubject well has been T.A. Propose to run tubing & sufficient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) .since 1957 rods to test subject well Lify producing, propose to	MAR 1 6 1964
State names of and expected depths to objective sands; ing points, Subject well has been T.A. Propose to run tubing & I sufficient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) .since 1957 rods to test subject well Lify producing, propose to	MAR 1 6 1964
State names of and expected depths to objective sands; ing points,	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject vell tify producing, propose to	MAR 1.6 1964
State names of and expected depths to objective sands; ing points, Subject well has been T.A. Propose to run tubing & I sufficient amount to just	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject vell tify producing, propose to	MAR 1 6 1964 ARTESIA DEFICE operations may be commenced.
State names of and expected depths to objective sands; ing points, Subject well has been T.A. Propose to run tubing & I. Sufficient amount to just Understand that this plan of work must receive to the company Craridge Corporation Drawer **B**	show sizes, weights, and lengths of proposed casing and all other important proposed work) since 1957 rods to test subject vell tify producing, propose to	MAR 1 6 1964
