W. A. Scott

August 7, 1938

Mr. Geo. M. Neel  
State Engineer  
Santa Fe, New Mexico

Dear Mr. Neel:

This will acknowledge receipt of your letter of July 26th, regarding the well in Section 7, T. 18 S., R. 27 E., which Mr. A. A. Kaiser wishes to convert into an artesian well.

I find that a "Notice of Intention to Drill New Well" was submitted to this office by Mr. W. A. Scott for this well which was designated as the Kaiser Well # 1. This Notice is dated May 27, 1932. It was approved by Mr. J. D. Hunter, State Oil & Gas Inspector, provided an acceptable surety bond in the amount of \$1,500.00 was filed with this office. However, no bond was filed by Mr. Scott and hence the drilling of this well has never been finally approved by this office.

Under the circumstances, it will be quite satisfactory for you to take over this well and handle it as a regular artesian well independent of the State Geologist. We will be relieved to know that it will be properly handled from now on and that no damage will result from failure to plug it as an oil test.

Very truly yours,

EHW:F

E. H. Wells,  
State Geologist.

Mr. Geo. M. Neel  
State Engineer  
Santa Fe, New Mexico

Dear Mr. Neel:

This will acknowledge receipt of  
your letter of July 28th, regarding the well  
in Section 7, T. 18 S., R. 27 E., which Mr.  
A. A. Kaiser wishes to convert into an artesian  
well.

I find that a "Notice of Intention  
to Drill New Well" was submitted to this office  
by Mr. W. A. Scott for this well which was  
designated as the Kaiser Well. This Notice  
is dated May 27, 1932. It was approved by Mr.  
J. D. Hunter, State Oil & Gas Inspector, pro-  
vided an acceptable surety bond in the amount  
of \$1,500.00 was filed with this office. How-  
ever, no bond was filed by Mr. Scott and hence  
the drilling of this well has never been finally  
approved by this office.

Under the circumstances, it will be  
quite satisfactory for you to take over this  
well and handle it as a regular artesian well  
independent of the State Geologist. We will be  
relieved to know that it will be properly handled  
from now on and that no damage will result from  
failure to plug it as an oil test.

Very truly yours,

END

E. H. Wells,  
State Geologist.
