Commissioner of Public Lands,
Santa Fe, New Mexico

Att: Miss Franks

Dear Miss Franks:

In reply to your letter of January 5th regarding the status of the W. A. Scott-Kaiser #1 well in Sec. 7, T. 18 S., R. 27 E.

I was out to this well and they are taking some artesian water from it between the two strings of pipe but it is shut in all the time except when they are filling a truck tank and hauling it. The water they are taking out is very negligible.

Although this well does need some repairs and I have written Mr. Scott about it and ask him to fix it. I have been rather hesitant about getting after him until the bond was put into effect. Since I received a letter from Dr. Wells saying this bond had been completed I have started to get it reconditioned.

Trusting the above will cover what you need and I will advise as soon as I succeed in the reconditioning.

Very truly yours,

J. D. Hunter,
State Oil & Gas Inspector
