

## OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

R. 27-E

N. M. P. M.

Empire

Field,

Eddy

County.

The dates of this work were as follows: April 18, 1948

Notice of intention to do the work was ~~submitted~~ submitted on Form C-102 on April 17, 1948 19and approval of the proposed plan was ~~obtained~~ obtained. (Cross out incorrect words.)

## DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

We ran tubing to 820', spotted 20 sacks of cement; came up to 760'

and spotted 30 sacks of cement. Then filled the hole with heavy mud, and

cement plug at top. This work was done by Halliburton Oil Well Cementing Co.

163' of 9-5/8" pipe cemented and left in the hole. No oil shows in the well.

Title

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the transparency and accountability of the organization. This section also outlines the various methods used to collect and analyze data, ensuring that the information is reliable and up-to-date.

2. The second part of the document focuses on the implementation of the proposed changes. It details the steps involved in the transition process, from the initial planning phase to the final execution. This section also addresses the potential challenges that may arise during the implementation and provides strategies to overcome them.

3. The third part of the document discusses the long-term impact of the changes. It highlights the expected benefits of the new system, such as improved efficiency and cost savings. This section also outlines the ongoing monitoring and evaluation process to ensure that the changes continue to deliver the desired results.

4. The fourth part of the document provides a detailed overview of the financial aspects of the project. It includes a breakdown of the estimated costs and a comparison of the expected benefits. This section also discusses the funding sources and the financial sustainability of the project.

5. The fifth part of the document discusses the legal and regulatory requirements that must be met. It outlines the necessary approvals and the steps to ensure compliance with all relevant laws and regulations. This section also addresses the potential legal risks and provides strategies to mitigate them.

6. The sixth part of the document discusses the human resources aspects of the project. It outlines the roles and responsibilities of the key personnel involved in the project. This section also discusses the training and development needs of the staff and provides strategies to address them.

7. The seventh part of the document discusses the communication and public relations aspects of the project. It outlines the key messages and the communication strategy. This section also discusses the public relations activities and provides strategies to ensure a positive public response.

8. The eighth part of the document discusses the risk management aspects of the project. It outlines the potential risks and provides strategies to identify, assess, and mitigate them. This section also discusses the risk management framework and provides strategies to ensure its effectiveness.

9. The ninth part of the document discusses the conclusion and next steps. It summarizes the key findings of the study and provides recommendations for the future. This section also outlines the next steps in the project and provides strategies to ensure their successful completion.

10. The tenth part of the document discusses the appendix. It includes a list of references, a list of figures and tables, and a list of abbreviations. This section also includes a list of the names of the individuals who contributed to the project.
