Original Well Data:

DF Elev. _____ TD _____ PBD _____ Prod. Int. _____ Compl Date _____
Tbng. Dia _____ Tbng Depth _____ Oil String Dia _____ Oil String Depth _____
Perf Interval (s) _____
Open Hole Interval _____ Producing Formation (s) _____

RESULTS OF WORKOVER:

BEFORE

AFTER

Date of Test

Oil Production, bbls. per day

Gas Production, Mcf per day

Water Production, bbls. per day

Gas-Oil Ratio, cu. ft. per bbl.

Gas Well Potential, Mcf per day

Witnessed by _____

(Company)

OIL CONSERVATION COMMISSION

I hereby certify that the information given above is true and complete to the best of my knowledge.

Name M. L. Armstrong
Title OIL AND GAS INSPECTOR
Date DEC 26 1957

Name Wilson J. Hammond
Position Representative
Company Weiler Drilling Co.
Box 716
Monahans, Texas

1. The first part of the report is a general description of the project and its objectives. This section should provide a clear and concise overview of the work that has been done and the results that have been achieved. It should also include a brief discussion of the methods that were used and the limitations of the study.

2. The second part of the report is a detailed description of the results of the study. This section should provide a thorough and complete account of the data that were collected and the analysis that was performed. It should also include a discussion of the implications of the findings and the conclusions that were drawn.

3. The third part of the report is a discussion of the results of the study and the conclusions that were drawn. This section should provide a clear and concise summary of the findings and the implications of the study. It should also include a discussion of the limitations of the study and the directions for future research.
