July 13, 1944

Mr. David C. Saikin
Artesia, New Mexico

RE: Las Cruces 026855-A

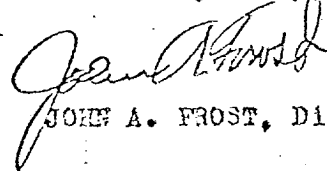

Dear Sir:

Receipt is acknowledged of the enclosed "Notice of Intention to Test Water Shut-off", in triplicate, which has been erroneously prepared. If you intended this report to cover your well No. 1 Vandagriff, you have designated the wrong well number and the wrong foot location.

Will you kindly resubmit this report, in correct and proper form, including the following information desired;

1. Designate correct well number and foot location of well.
2. Show size of casing and where set.
3. Is this a notice to do work, or work already done?

Yours very truly,

JOHN A. FROST, District Engineer.
