Re: NM 6852  
Robert G. Cox, Operator  
#1 & #2 Federal "EA" Wells  
Eddy County, New Mexico

Dear Jim:

Enclosed are corrected copies of form #9-331 (Sundry Notices and Reports on Wells), which contained a typographical error on the original form filed March 15, 1973. As we discussed in our phone conversation the deviation was 171.8 feet west, instead of the typed 1718' west.

Also enclosed are copies of the Eastman Directional Survey Reports, giving the results of the surveys, run on both of the captioned wells, and a filled in form #9-330 (Well Completion).

If there is any data missing for your records, please call me collect and I'll run it down.

Hope to be able to meet with R. L. and you sometime next week.

With kindest personal regards.

Sincerely,

*Robert G. Cox*
