Re: Chalk Bluff Draw Unit A
Well No. 19-N, 16-18-27,
Empire-Abo Pool, Eddy
County, New Mexico

Dear Mr. Berry:

Enclosed please find Form C-103 reporting the conversion of the subject well to water injection. The report is being returned so that additional information may be shown.

Order R-3463, which authorized the disposal well, requires that a packer be set at approximately 3650 feet, that the casing-tubing annulus shall be filled with an inert fluid and that a pressure gauge shall be attached to the annulus or the annulus left open. The status of these items must be shown on Form C-103.

Please make the necessary additions to the report and return it to this office.

Very truly yours,

OIL CONSERVATION COMMISSION
