The above well was shut-in on April 3, 1970. The well was uneconomical to produce. This well is being held for secondary recovery and/or unit pressure observation well. The well is currently being used as a pressure observation well. The status of this well is subject to change as the producing characteristics of the unitized area changes. No estimated date of change. This well is a part of the Empire Abo Pressure Maintenance Project per OCC Order No. R-4548, R-4549 & as amended. Request an extension of present status.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
