Dear Sir:

This confirms telephone conversation of April 26, 1961, with Mr. Lowe, at which time verbal permission was received to flare 5 MMCF of gas from Humble's Chalk Bluff Draw Unit, Well 4-P, Unit G, Sec 17, T-18-S, R-27-E, Red Lake Pennsylvanian Pool, Eddy County, New Mexico.

Permission to flare gas was requested in order that results of workover can be obtained.

Very truly yours,

HUMBLE OIL & REFINING COMPANY
