PULL OR ALTER CASING ☐	OTHER ☒ Test, run casing, produce	CASING TEST AND CEMENT JOBS ☐	

Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was plugged as follows: 25 sack cement plug placed in bottom of well through pay section, mudded to bottom of 8 5/8" casing. 10 sack cement plug placed in pipe, 278' of 8 5/8" pipe recovered from 480' originally run. Well mudded to surface and regulation marker set. We are concerned that the subject well needs to be re-entered and checked for waterflood response and possible loss of water out of the pay zones.

We propose to re-enter to pump test the well under open-hole conditions. Based on pump test, run casing and produce well or replug.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
