Well shut in leak found on casing about 1 and a half foot under casing head. Dug out around well head, hit cement and hard rock about a foot under the head. Bad weather, rain and snow stopped the digging out, due to water and mud in cellar. Will rig well unit up on well-3-21-01 and take slack out of casing to make repair, and test casing with chart.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
