17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well converted to injection well 5/16/74. Due to low permeability of formation in this well - we feel that the small amount of water being injected into this well is of no benefit to the flood, therefore, we propose to pull cement lined tubing and packer and clean out to T.D. of 1960' - Run 2-3/8" tubing and put well on production.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED E. J. Davis TITLE Production Supervisor DATE February 14, 1979
