November 5, 1955

Well No. 12 is located 600 ft. from (N) line and 1200 ft. from (E) line of sec. 10

NM NM (1/4 Sec. and Sec. No.) 18S (Twp.) 20E (Range) N M P M (Meridian)
Artesia (Field) Elddy (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Plan to drill well to test Grayburg sands. Will use combination rig so will be able to use cable tools or rotary with air. Plan to set 7 at 400' and cement with 50 sacks. Will set 4 1/2" casing either on bottom or just above lowermost pay and cement w/100 sacks, then move rotary off and complete with Company tools. Will sand frac the sand pays.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Malco Reeler Yates
