Re: Plugging: Gulf-State 19 Well No.
1, Unit L, Sec. 19-18S, R 28E,
Eddy County, New Mexico

Gentlemen:

According to our records the subject well has been plugged and abandoned since May of this year. To date this office has not received form C-103 reporting this operation. Further, a field inspection of the site reveals that the exact location of the well is not shown on the marker, the dead man wires have not been cut, there is junk on the location, and the pit is not filled. Please complete this work as soon as possible and report its completion on form C-103 along with the Report on Abandonment so that we may complete our files.

Very truly yours,

OIL CONSERVATION COMMISSION

M. L. Armstrong
