OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Gentlemen:

You are hereby notified that it is our intention to commence the Drilling of a well to be known as
The Ibox Company

(Company or Operator)

Morris Gulf State

(Lease)

Well No. 1, in 0 The well is

located 1650 feet from the north line and 8310 feet from the
E line of Section 22, T. 18S, R. 20E, NMPM.

(GIVE LOCATION FROM SECTION LINE)

Artesia

Pool

Eddy

County

If State Land the Oil and Gas Lease is No. B-8561 (May not be current)

If patented land the owner is.....

Address.....

We propose to drill well with drilling equipment as follows: Cable tools
to 4478'

The status of plugging bond is Current

Drilling Contractor Carl Howell

We intend to complete this well in the Unknown - base of San Andres or
Glorietta
formation at an approximate depth of 4440 feet.

CASING PROGRAM

We propose to use the following strings of Casing and to cement them as indicated:

Size of Hole	Size of Casing	Weight per Foot	New or Second Hand	Depth	Sacks Cement
10	8-5/8	24	S.H.	503	
7	5-1/2	14	New	4430	100

If changes in the above plans become advisable we will notify you immediately.

ADDITIONAL INFORMATION (If recompletion give full details of proposed plan of work.)

This is re-entry of well originally drilled by Malco Refineries, Inc., & Heiler Oil Co. as Morris State #1. Gulf Oil Co. now owns mineral lease and The Ibox Company owns water rights. The purpose of this well is to make a water supply well.

Approved..... JUN 17 1957
Except as follows:

Sincerely yours,

The Ibox Company

(Company or Operator)

Dear Mose:

We are returning herewith Form C-101 as filed by the Ibex Company on the Morris Gulf State No. 1-G, 22-18-28, Artesia Pool. It will be in order for you to approve this form if the casing and cementing program, as outlined thereon, meets with your approval.

Please file the attached note from Dan in the well file.

Very truly yours,

A. L. Porter, Jr.

Memo

RECEIVED
6-14
JUN 17 1967

From
Oil Cont. Comm.
ARTESIA OFFICE

To Pete

I checked the transcript
on case 1196.

I bef at that time had
2 possible sources of water.

One was to drill a water
supply well which would
encounter fresh water at
60' and also at 265'.

There is also an unfit for
domestic use water to be
found @ 350'. The other
source of water they had in
mind was to ~~to~~ re-enter
this subject well and produce
sweet water from 4400'. There.

was no objection to this
plan so I'm sure
that it's OK to approve
the C-101 providing ^{it has} an
adequate casing program
which meets Mose
Armstrong's approval.

Incidentally, this is
outside of any declared
water basin.

Memorandum RECEIVED
