DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

When this lease was purchased by Resler Oil Co., the National Supply Company advised that it had 400' of 10" 32# casing and 800' of 8 5/8" 24# casing. We know that the two strings are still in the well but cannot testify as to the length of 10 3/4". While working in hole deepening we found that the 8 5/8" shoe was about 760' deep. These strings were not pulled when well plugged and abandoned.
