

TOOMEY ALLEN #1 - NW 1/4, SE 1/4, Sec. 28, T18S, R28E

Eddy Co.

1-1-1926 Original ID 2800'.

5-1-1959 Well purchased from D & E Well Service. Showed PB depth 2100'.

3-21-1961 Ran steel line and found PB depth 2235'. Filled hole with pea gravel from 2235' to 2100'. Dumped 5 sack cement plug on top of gravel - 2100' to 2095'. Filled hole from 2095' to 2075' with pea gravel. Ran collar log to see if 7" liner perforated (7" liner 1765' to 2065'). Could not determine if liner perforated, therefore, we perforated 7" liner 2036' to 2056' with 4 holes per foot using Western Company jets. Ran tubing and rods. Put well to pumping.
