Re: Producing/Selling  
Without Allowable

Gentlemen:

The following wells are shown on the computer sheet from Santa Fe,  
as producing without an allowable.

Also, you show them on your C-115, Operator's Monthly Report, as  
producing, and as being picked up by your transporter.

Rotary State #4-G-20-18-28  
Rotary State #6-B-29-18-28

We do not show these wells as producing in the Proration Schedule.  
We show #6 as Shut-In. We do not show #4 at all.

If these wells have been shut-in, and are now producing, we need a  
C-103 showing what has been done to put them back into production.

Also, we need a C-104 requesting an allowable for these wells.

Very truly yours,
