

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

NOTICE OF INTENTION TO DRILL

Notice must be given to the Oil Conservation Commission or its proper agent and approval obtained before drilling begins. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional instructions in Rules and Regulations of the Commission.

Roswell, N.M.

November 5, 1947

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico,

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as

John M. Kelly State N.M. Well No. 2 in WNW
Company of Operator
of Sec. 29, T. 18S, R. 28E, N. M., P. M., Artesia Field, Eddy County.

AREA 640 ACRES

LOCATE WELL CORRECTLY

The well is 330 feet (N) (S.) of the North line and 330 feet
(E.) (W) of the west line of Section 29, 18-28
(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. B-9222 Assignment No. 7

If patented land the owner is _____

Address _____

If government land the permittee is _____

Address _____

The lessee is _____

Address _____

We propose to drill well with drilling equipment as follows: _____

Cable Tools

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Blanket bond on file

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
10	8 5/8	28	SH	480	Landed	50sax mud
8	7	24	SH	1900	Cemented	100

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 2000 feet.

Additional information:

Approved NOV 25 1947, 19____
except as follows:

Sincerely yours,

John M. Kelly

THE EFFECT OF VITAMIN DEFICIENCY ON THE

HEALTH

OF THE RAT. A STUDY OF THE EFFECTS OF DEFICIENCY OF VITAMINS A, B, C, D, E, K, AND P. BY J. H. HARRIS, JR., M.D., AND J. H. HARRIS, JR., M.D.

From the Department of Pathology, University of California, Los Angeles, California.

Received for publication, June 1, 1933; accepted for publication, July 1, 1933.

Reprints: J. H. Harris, Jr., M.D., Department of Pathology, University of California, Los Angeles, California.

The purpose of this study was to determine the effect of deficiency of vitamins A, B, C, D, E, K, and P on the health of the rat. The results of the study are presented in this paper.

The rat is a suitable animal for the study of the effect of vitamin deficiency on the health of the animal. It is a small animal, easy to handle, and its metabolism is similar to that of man.

The results of the study are presented in this paper.

MATERIAL AND METHODS

Animals

The rats used in this study were of the Wistar-Kyoto strain, which is a strain of rat that is known to be free of all known diseases.

The rats were divided into two groups: a control group and a group of rats that were deficient in one or more of the vitamins A, B, C, D, E, K, and P.

The control group was fed a diet that was known to be adequate in all vitamins. The group of rats that were deficient in one or more of the vitamins was fed a diet that was deficient in one or more of the vitamins.

The results of the study are presented in this paper.
