

NEW MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

1. The first group of variables is the "control" group, which includes variables that are expected to influence the dependent variable but are not the primary focus of the study. These variables are typically included to account for potential confounding factors. In this study, the control variables are the "Age" and "Gender" of the respondents, which are expected to influence their perception of the ethical implications of the proposed system.
