Re: Kelly State Well No. 1-O 8-18-28
Eddy County, New Mexico

Dear Mr. Donnelly:

The subject well is located on the same 40 acre unit with the plugged and abandoned Kelly State well No. 1. In order to avoid confusion and to comply with section 3 (D) Memo 2-65, we are requesting that you file Form C-104 changing the subject well's number from one to two. Further, as the subject well has been shut-in for some time, please file 3 copies of Form C-103 showing status of the well and your future plans for the same.

If there are any questions on this matter, do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION

R. L. Stamets
Geologist

RLS/bh

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The number of transformed cells was determined by the number of colonies obtained on the selective medium. The results are the mean of three independent experiments. Error bars represent the standard deviation.

1. The first step is to identify the problem. This involves understanding the situation and the goals that need to be achieved.
