New Mexico Oil Conservation Commission
205 Carper Building
Artesia, New Mexico.

Attention: Mr. L. A. Hanson

Gentlemen:

In reply to your letter of September 27, 1954, we are herewith enclosing the forms C-110 for the State M-2 # 2 well and the State M-2 # 4 well as per your instructions. We sincerely regret our oversight in not having these filed at the same time as we filed the other forms on the other wells.

You mention in your letter that we should also file a form C-103. We would like to advise that we have not treated or rather fractured any of the wells. The only work we have done is to install new seats and cups and some new pumping motors. As far as any actual work down in the wells themselves we have not done any.

However, in the event that such treatment is done, we will be glad to file the C-102 and C-103 forms at the time.

We trust that with the filing of the enclosed C-110's, it will be possible for you to assign an allowable on the State M-2 # 4 well.

If you need further information, we will be glad to cooperate in any way possible, and we appreciate the help you have given us.

Very truly yours,

DONNELL DRILLING COMPANY
