Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Continental Oil Company Travis Well No. 1 in SE 1/4
Company or Operator Lease
of Sec. 3, T. 18, R. 29, N. M. P. M., Loco Hills Field,
Eddy County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

1. Amount of oil string 2539'.
2. No. of sacks cement used on oil string 100.
3. Total depth 2999'.
4. Oil Sands, from 2603' to 2667' & _____' to _____'.
5. Plugged back to 2667'.
6. Shot with 160 quarts nitro glycerin.
7. Cleaned out to 2667'.
8. Tubing 2 1/2" EUC 2641'.
9. Packer-depth None.

The input wells for this project were selected by the Engineering Committee of the Loco Hills operators and were selected for the following reasons:

1. Establishing a uniform spacing of input wells in an effort to distribute the injected gas evenly throughout the field.
2. Selecting input wells that are in a proper mechanical condition.
3. Selecting input wells that have other producing wells on the same basic lease that can make up the allowable production normally assigned to the input well.
4. Endeavoring wherever possible to limit individual companies to one input well in order

Approved _____, 19____

Title

not to place too much of a burden on an individual company.

b.
Our Continental, Travis No. 1, meets the above requirements and is in a good mechanical condition. There are no "sharp horizons" above the loco sand pay zone.

Approval is hereby requested for use of the Continental Oil Company, Travis No. 1 well, as an input well for the returning of the gas to the formation, in place of Continental Oil Company-Grainard No. 2. Permission is also requested to produce the daily allowable normally assigned to this well from other wells on the same lease on which this well is located:

If this notice is approved:

Kindly send 1 approved copy to the Loco Hills Pressure Maintenance Assn., Inc., P. O. Box 126, Artesia, New Mexico, and return at least one copy to us for our files.

If this well takes gas successfully, it will be used in lieu of Continental-Grainard No. 2 well.
