(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

USE FOR COMPLETED OPERATIONS. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any  
work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-  
nent to the work.)

On February 22, 1978 Anadarko reported the Plugging & Abandonment of this well.  
On April 14, 1978 Anadarko submitted Form 9-330 disclosing applicable information.  
On this form Anadarko Mentioned that they would like to keep the road and location  
intact so their Ballard Unit #10-5 could utilize the same.

Anadarko drilled a well on Tract #10 - #5 which replaced the well that was plugged  
and abandoned. It was drilled just 70' West of Ballard #10-4 so the location and  
road were utilized.

All other clean-up work has been done and the pits filled and ready for inspection.

Tract No. 10 - Well #5 was placed on production 11-14-79.
