Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

- 11-4-74 Trip in hole w/6 1/4" bit. Tagged top of fish @ 2190'. Trip out of hole with bit.
- 11-5-74 Trip in hole with 7" tension packer on 2 7/8" tubing. Set packer @ 2185'. Established an injection rate of one barrel per minute @ 450 Psi through 3" tubing 2190' to 2371'. Pulled packer out of hole and started in hole with Halliburton 7" drillable cement retainer. Cement retainer accidentally set @ 482'. Pumped water through cement retainer and established one barrel per minute rate @ 450 Psi. Pulled 2" bull plug from side of 8 5/8" casing head. Found no flow of fluid or gas from surface casing. Called U.S.G.S. office in Artesia; Mr. Beekman gave permission to plug from 482'.
- 11-6-74 Pumped 650 sacks of Class H cement. Plugged open hole from 2660' to 2360' and 7" casing from 2304' to 482'. Shot 7" off at 469', pulled 7" casing out of hole.
- 11-7-74 Spotted 70 sacks cement plug on top of cement retained @ 482', waited 5 hours, found top of plug @ 270'. Ran 10 sacks cement plug at surface and set dry-hole marker. Rigged down, tie-downs below ground and cleaned location.

CONDITIONS OF APPROVAL, IF ANY:

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
