NOTICE OF INTENTION TO PULL OR ALTER CASING		SUPPLEMENTARY WELL HISTORY	
NOTICE OF INTENTION TO ABANDON WELL			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

December 7, 1948

Well No. 2-B is located 990 ft. from S line and 2310 ft. from W line of sec. 8

SE/SW 1/4 Sec. 8 (M Sec. and Sec. No.)  
Loco Hills (Field)  
18S (Twp.)  
Eddy (County or Subdivision)  
29E (Range)  
NMPM (Meridian)  
New Mexico (State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft.

### DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

About November 24, 1948, we acidized zones from 2911 feet to 3008 feet (packer set at 2885 feet) with 1000 gallons of acid. Swabbed acid water out and production was at the rate of 60 barrels per day. On or about November 27, 1948 we acidized with 3000 gallons of acid and well kicked off and flowed. After acid, the well produced 150 barrels of oil per day.

Artesia, New Mexico

Survey before operations may be commenced.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.  
Company Stroup & Yates (Harvey E. Yates) Oil Co.
